

## Applications

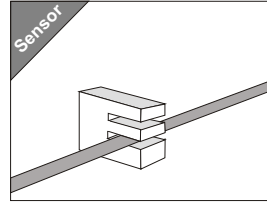

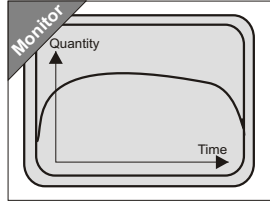

Generation of weight distribution profiles of multi-layer card boards, control of correct alignment.

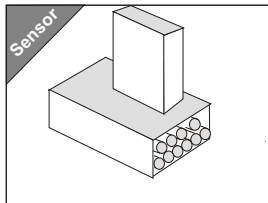

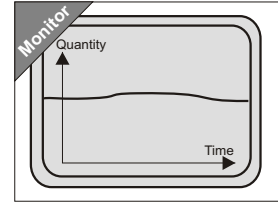

Generation of weight distribution profiles of multi-wall paper products, control of correct alignment, applied glue quantity

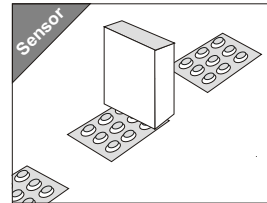

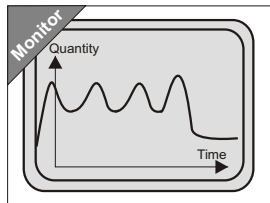

Generation of weight distribution profiles of non woven pads, control of weight quantity and homogeneous distribution, measured through foil carrier

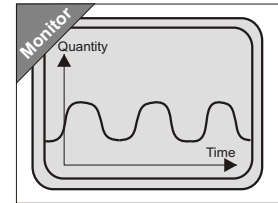

Generation of weight distribution profiles of endless non woven webs, control of weight and homogeneous material distribution

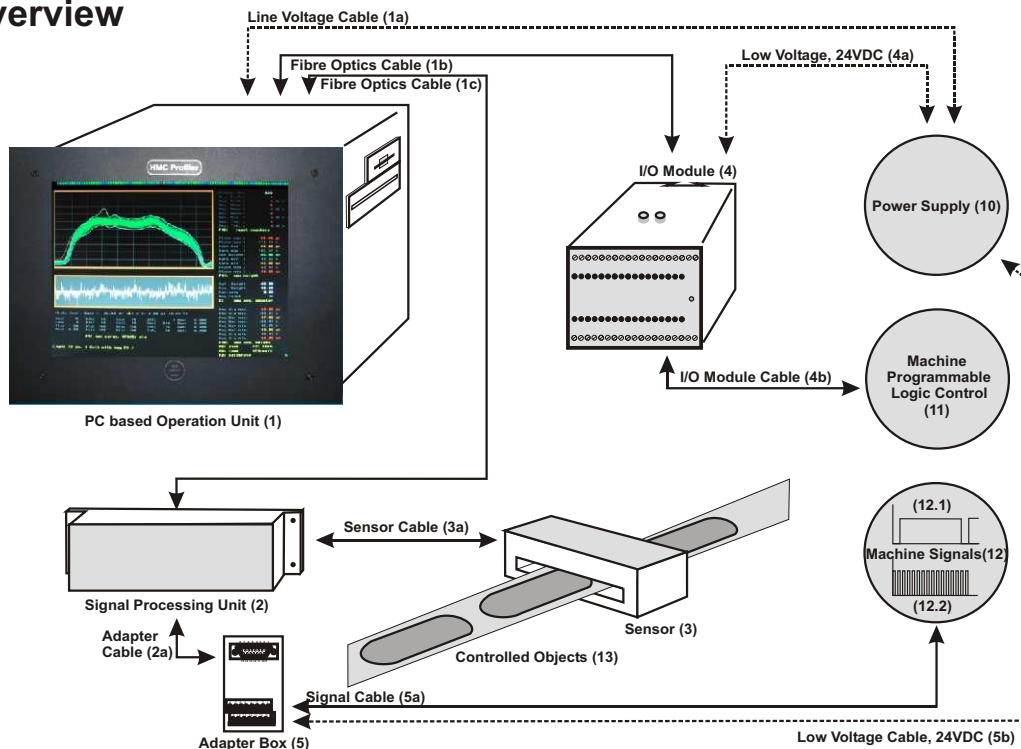

Generation of weight distribution profiles of packaged rods, control of presence

Generation of weight distribution profiles of blister packaged pills, control of presence and quantity

## System overview

## Order Data

HMC Profiler version	order no.
HMC Profiler for baby diaper control	HMC-Profiler-BAB
HMC Profiler for adult diaper control	HMC-Profiler-AD
HMC Profiler for fem. napkin control	HMC-Profiler-NAP
HMC Profiler consisting of :	1 pc. PC-based Operation Unit
	1 pc. Signal Processing Unit
	30m Fibre Optics Cable
	1 pc. Sensor
	1 pc. I/O module
